ENGINEERING AND MINING JOURNAL

# 1956

# Index to Volume 157

## January to December

### *Where To Look In This Index*

On the following twelve pages you will find all the material which appeared in *Engineering & Mining Journal* in 1956—editorials, major articles, news, reports of meetings, regular departments—listed alphabetically in one or more of the following categories:

**By Commodity**—from Aluminum to Zinc
**By Country or Continent**—from Africa to Venezuela
**By Technology**—from Blasting to Ventilation
**By Title of the Article**

## Engineering and Mining Journal's 1956 Mid-June Mining Guidebook And Buying Directory Issue

Whether you're looking for a new idea or seeking the answer to a difficult operating problem, make it a point to check first your E&MJ 1956 Mining Guidebook and Buying Directory Issue (Mid-June 1956). E&MJ editors planned the Guidebook as a practical, easy-to-use round-up of the newest and most significant operating techniques. Many E&MJ subscribers are finding it a helpful, day-to-day source of good ideas and useful data. The Buying Directory section and manufacturers' advertising will save you time in locating the latest in mining equipment, materials and services applicable to your specific operating conditions.
